

Psychology Department

In the Psychology Department at Cardinal Newman Catholic School our aims are as follows:

1. To help students develop their independent skills and to ensure they develop a love of learning Psychology.
2. To provide students with a wide range of resources, including case studies so that students can apply a wide range of Psychological perspectives incisively.
3. To develop in students a clear understanding of research methods in Psychology and nurture their skills of analysis and evaluation.

We are an ambitious, hard-working, and supportive team with a good sense of humour. Our primary focus is Teaching and Learning and the majority of our department time is focused on developing this. It is a collegiate team where teachers share resources and ideas and continually strive to develop practice to best support our students.

There are 2 full time teachers in this highly popular department. Teachers are expected to teach mixed ability KS5 classes and we currently have 9 classes across Y12 and 13 studying Psychology. We are very proud of the fact that 30% of our students go on to study Psychology at degree level.

If you wish to submit an application, please ensure you tell us how your skills and experience to date will enable you to contribute to our vision.
