

## **Exams Department Information**

The successful applicant will join the busy Exams department, which provides support to our school and college communities (students, colleagues and parents/carers) in pre-public and public Examinations, including a range of qualifications and University Admissions Tests. The successful applicant will engage in a variety of tasks, deal with many different people and potentially have to multi-task whilst managing changing priorities.

The Exams Dept works to ensure that all of our students and Newman families feel supported to have the best, most successful exams experience throughout their time with us. It's a great team and we look forward to discussing the opportunities to join us with you.
